SUMMARY

Final-year Computer Science Engineering student and aspiring Software Developer with experience building full-stack and AI-powered web applications. Developed production-grade RAG and MERN-based systems with real-time features and cloud deployment. Strong foundation in Python, JavaScript, TypeScript, React, FastAPI, Node.js, PostgreSQL, and REST APIs.

EDUCATION

Vellore Institute of Technology, Chennai B.Tech. in Computer Science and Engineering (Spl. Cyber Physical Systems)	2022 – 2026
Police D.A.V. Public School Senior Secondary (Class XII)	2022
P.K.R. Jain Vatika Sr. Sec. School Secondary (Class X)	2020

PROJECTS

Enterprise AI Knowledge Platform - Engineered a hybrid RAG system with BM25 + Qdrant vector search fused via Reciprocal Rank Fusion. - Architected FastAPI backend with JWT auth, RBAC, SQLAlchemy, and Qdrant Cloud. - Shipped React 19 + TypeScript frontend with SSE streaming; deployed via Docker.	Live GitHub
ForgeAI – Enterprise Multi-Agent Software Engineering Platform - Built an AI platform orchestrating 9 specialized agents to automate software requirements, architecture, planning, and documentation. - Developed a FastAPI backend with Clean Architecture, PostgreSQL, JWT authentication, Docker, and asynchronous pipeline execution. - Engineered a React + TypeScript frontend and deployed on Render, Vercel, and Neon PostgreSQL.	Live GitHub
Full-Stack Job Portal Application - Built a full-stack job portal supporting recruiter and candidate workflows with job posting and application tracking. - Implemented role-based authentication and application management for 100+ job submissions. - Deployed on Vercel with MongoDB and Cloudinary integration to securely manage 500+ records.	Live GitHub
Real-Time Chat Application - Developed a MERN-based real-time chat application enabling one-to-one messaging for 100+ users. - Enabled instant messaging, typing indicators, and live updates using Socket.IO. - Secured user sessions through JWT authentication with persistent MongoDB storage.	Live GitHub

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C/C++, HTML5, CSS3
Frameworks/Libraries: React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, Socket.IO
Databases: PostgreSQL, MongoDB, MongoDB Atlas, Qdrant (Vector DB), SQLAlchemy
Auth/APIs: JWT, RESTful APIs, Server-Sent Events (SSE), Axios, Stripe API
Tools & Platforms: Git, GitHub, Docker, Vercel, Render, VS Code

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900) — Microsoft	Jul 2024
The Complete Full-Stack Web Development Bootcamp — Udemy	Sept 2025
IBM Artificial Intelligence Fundamentals — IBM	Jul 2026

ACHIEVEMENTS

- Secured Top 10 at LIBATHON 2025, a 36-hour hackathon by VIT Chennai.
- Ranked in Top 1% with a perfect score (100/100) in a 12-week NPTEL course certified by IIT Kanpur.

POSITIONS OF RESPONSIBILITY

- NSS Club Lead — Coordinated 20+ volunteers to execute campus-wide social and awareness initiatives.
- Hostel Representative — Represented 300+ students by coordinating with hostel administration.
